Full HD 1080p Output Resolution

Equipped with Full HD 1080p resolution, the PTC310 provides ultra-precise auto tracking. The PTC310 also features a Sony sensor that maintains a truly impressive video performance through every frame of your production.

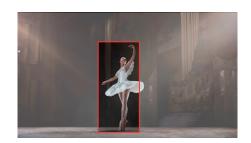

12X Optical Zoom & 2X Sensor Zoom

The zoom power of the PTC310 camera reaches an incredible 24X (12X optical and 2X sensor zoom). It works even while the camera is panning and tilting, allowing you to highlight content and rapidly change shooting angles. Operate a closer and clearer video feed with the unbeatable PTZ performance of the PTC310.

Human Detection Al

Welcome AVer's most advanced AI tool yet—Human Detection. This highly accurate processing function enables PTC310 to easily detect and capture human forms and moving objects in seconds. Never miss a tracking target again.

Click & Track

Redirect focus in an instant with the PTC310. Simply click on a target to quickly adjust the shooting angle and initiate precise tracking. This advanced feature is easy for anyone to operate via both remote control and intuitive Web UI.

Presenter Mode

Track your target everywhere with Presenter Mode. This feature gives presenters the flexibility to leave the stage and interact with the audience, all while being continuously tracked. The camera stays locked on its target, even if other people or objects get in the way.

Zone Mode

Zone Mode enhances your ability to capture content on multiple displays. Create up to four content zones to steadily capture the content on display rather than the presenter's movements.
